IMPORTANT NOTICE TO ALL OF OUR MUCH VALUED OWNERS

Tuesday 24th March 2020

CORONAVIRUS UPDATE—PLEASE DO NOT DISREGARD

Things are moving very fast within Parliament with publicity in relation to Government advice on social distancing and against unnecessary travel, and the negative impact this has on a park welcoming caravan owners requiring people to travel which is against Government advice. The discussions are of what to do in respect of those using holiday caravans, they are not about holiday and touring parks being allowed to stay open for business as usual.

'Further instructions from Central Government will be imminent'

These are unprecedented times. We all have a responsibility to consider not just ourselves but the people of our country, the local community and on this park. We are having to make decisions and take actions which were unimaginable a few weeks ago.

We ask all owners on the park not to stay in your holiday caravan at this time and to be sensitive towards the views and needs of the local community and NHS. The time for you to leave in a safe and orderly way is limited.

If there is an extreme reason why you cannot leave, you need to discuss that with us now.

The Governments clear guidance is that there must be no unnecessary or non-essential travel. The guidance clearly states "Essential travel does not include visits to second homes, camp sites, caravan parks or similar, whether for isolation purposes or holidays. People should remain in their primary residence."

We ask owners who are not on the park not to come here, and if you are on the park please go home. We are following the Government guidance so closing to protect you and wider society.

Most importantly, the Coronavirus Bill is now before Parliament and we have been requested to inform all owners of a strong possible outcome that all holiday parks may be ordered to close. This would obviously happen rapidly, so it is important that all owners seek to return home immediately.

When vacating your holiday home for safety purposes please ensure that water and gas is turned OFF. Electricity can be left on for freezers etc. Please do NOT travel to turn water and gas off, telephone the park on 01262 605107 and we will be happy to do this for you.

We will give updates upon us receiving instructions from Government

We understand that you will be both concerned and disappointed but are sure you will agree that this is a positive opportunity to take a responsible course of action.

We the park operators and the park customers, need to consider the interests of the country, the NHS, local community and all the people on the park.

This is an incredibly sad day, but we need to stand up as a responsible community and do, and be seen to do the right thing.

Please be aware that we are dealing with many situations at the moment, so would appreciate it if you made only necessary contact. Obviously we want to hear from you if you need help. For those who use email please contact us on enquiries@martonvalley.co.uk or telephone us on 01262 605107.

Wishing you all comfort and safety in these testing times from everybody at Marton Valley Leisure.
